

Beyond Access: Designing for Inclusion

What is Accessibility?

The Office for Civil Rights (OCR) at the U.S. Department of Education defines accessibility as meaning "when a person with a disability is afforded the opportunity to acquire the same information, engage in the same interactions, and enjoy the same services as a person without a disability in an equally integrated and equally effective manner, with substantially equivalent ease of use."

What is Inclusion?

The ongoing and transformative process of improving education systems to meet everyone's needs, especially those in marginalized groups.
