Zotero
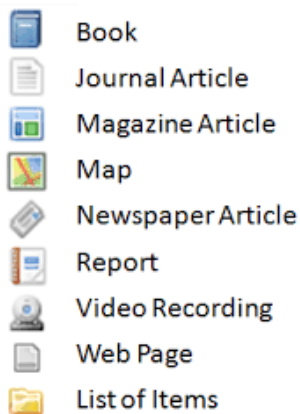

Documentation

[Zotero Quick Start Guide](#)

[Full Zotero Documentation](#)

Save

Use the Zotero Connector Save button in your browser to import items. Save button changes based on resource type:

- Book
- Journal Article
- Magazine Article
- Map
- Newspaper Article
- Report
- Video Recording
- Web Page
- List of Items

Or use the green plus button in the desktop app to manually add items.

Zotero saves copies of resources for preservation or offline use.

Zotero can automatically sync your library across devices.

Organize

Collections allow hierarchical organization of items into groups and subgroups.

Tag items based on their topics, methods, status, etc., then filter your library using those tags.

Cite

Word processor integration
or
Select and drag item to word doc
or
Highlight sources then right click to Create Bibliography

Share

Create a group to work collaboratively or share your collection publicly. Group types include:

- Private
- Public, Closed
- Public, Open

Undergrads just need a citation generator?

Try ZoteroBib at [zbib.org](#)

- Search for existing citation info or enter manually
- 1000s of citation styles including MLA, APA, & Chicago
- Uses browser cookies to save citations
